

## Video conference with Commissioner Simson: Renovation wave

On 23 April FIEC participated in a video conference with Commissioner Simson, responsible for Energy, for an exchange of views on the forthcoming Renovation Wave. The discussion focused on the contribution of building renovation to the post Covid-19 recovery, financing, how to get projects off the ground quickly and on the possible regulatory obstacles to be removed.

FIEC also asked for renovation of infrastructure be included in the initiative. An open consultation should be launched probably in June and the Commission's proposal is expected in Q3 2020.
