

FIEC conference on EU elections and priorities for new term 2019-2024

Following the EU elections and in anticipation of the new Commission, FIEC's conference for members on 7 June 2019 focused on its messages and requests for the EU term 2019-2024 to the incoming MEPs, the Commission officials and the new Commissioners.

The construction industry impacts every single citizen in the EU: we spend more than 70% of our time in buildings and we rely on infrastructure to get from home to work. We therefore need a legislative and political framework that facilitates the long-term development and sustainability of our industry.

Friday 7th June

09.30 – 11.00
