

FIEC meets Commissioner Mariya Gabriel

FIEC had the opportunity to discuss and exchange views with Commissioner Mariya Gabriel.

Her responsibilities in the new Commission cover Innovation, Research, Culture, Education and Youth, which are all key drivers for the construction sector in the light of the forthcoming EU Green Deal and of the digital transition.

Commissioner Gabriel encouraged the sector to be more proactive and present with specific projects in the field of innovation, in particular in the framework of the Horizon Europe programme.
